

Lincoln's Love Affairs

By Ward Hill Lamon,
Lincoln's Friend and Bodyguard

And His Early Experiences as a Lawmaker

Letters From Mary Owens.
— May 1, 1866.

Mr. W. H. Herndon:
Dear Sir—After quite a struggle with my feelings I have at last decided to send you the letters in my possession written by Mr. Lincoln, believing, as I do, that you are a gentleman of honor and will faithfully abide by all you have said.

My associations with your lamented friend were in Menard county whilst visiting a sister, who then resided near Petersburg. I have learned that my maiden name is now in your possession, and you have ere this no doubt been informed that I am a native Kentuckian. I cannot tell you anything, she having died previous to my acquaintance with Mr. Lincoln, and I do not now recollect of ever hearing him mention her name. Please return the letters at your earliest convenience. Very respectfully yours,
MARY S.

— May 22, 1866.

Mr. W. H. Herndon:
My dear Sir—Really you catechise me in true lawyer style, but I feel you will have the goodness to excuse me if I decline answering all your questions in detail, being well assured that few women would have ceded as much as I have under all the circumstances.

You say you have heard why our acquaintance terminated as it did. I do, and have heard the same tale of gossip, but I never used the remark which Madam Rumor says I did to Mr. Lincoln. I think I did on one occasion say to my sister, who was very anxious for us to be married, that I thought Mr. Lincoln was deficient in those little links which make up the chain of woman's happiness—at least it was so in my case. Not that I believed it proceeded from a lack of goodness of heart, but his training had been different from mine; hence there was not that congeniality which would otherwise have existed.

From his own showing, you perceive that his heart and hand were at one point, and I suppose that my feelings were not sufficiently enlisted to have the matter consummated. About the beginning of the year 1838 I left Illinois, at which time our acquaintance and correspondence ceased without ever again being renewed.

My father, who resided in Green county, Ky., was a gentleman of considerable means, and I am persuaded that few persons placed a higher estimate on education than he did. Respectfully yours,
MARY S.

— July 22, 1866.

Dear Sir—I do not think that you are perturbed in asking the question relative to old Mrs. Bowen Greene, because I wish to set you right on that question. Your information no doubt came through my cousin, Mr. Gaines Greene, who visited us last winter. Whilst here he was laughing at me about Mr. Lincoln and, among other things, spoke about the circumstance in connection with Mrs. Greene and child. My impression is now that I tacitly admitted it, for it was a season of trouble with me, and I gave but little heed to the matter. We never had any fond feelings toward each other that I know of. On no occasion did I say to Mr. Lincoln that I did not believe he would make a kind husband because he did not tender his services to Mrs. Greene in helping of her carry her babe. As I said to you in a former letter, I thought him laughing in smaller attentions. One circumstance presented itself just now to my mind's eye. There was a company of us going to Uncle Billy Greene's. Mr. Lincoln was riding with me, and we had a very bad branch to cross. The other gentlemen were very officious in seeing that their partners got over safely. We were behind, he riding in, never looking back to see how I got along. When I rode up beside him I remarked: "You are a nice fellow! I suppose you did not care whether my neck was broken or not." He laughingly replied: "I suppose by way of compliment, that he knew I was plenty smart to take care of myself."

In many things he was sensitive almost to a fault. He told me of an incident—that he was crossing a prairie one day and saw before him a hog mired in mud. He stopped, and he knew I was plenty smart to take care of myself.

"The Blood Is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgment are affected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. **Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery.** It enriches and purifies the blood, thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist doesn't happen to have the "All-Healing Salve" in stock, you can easily procure it by inclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

pass on with looking toward the street. After he had gone by, he said, the feeling was irresistible, and he had to look back, and the poor thing seemed to say wistfully, "There, now, my last hope is gone," that he deliberately got down and relieved it from its difficulty.

In many things we were congenial spirits. In politics we saw eye to eye, though since then we differed as widely as the south is from the north. But methinks I hear you say, "Save me from a political woman!" So say I.

The last message I ever received from him was about a year after we parted in

"THE POOR THING SEEMED TO SAY WISTFULLY, 'MY LAST HOPE IS GONE.'"

Illinois. Mrs. Abie visited Kentucky, and he said to her in Springfield, "Tell your sister that I think she was a great fool, because she did not stay here and marry me." Characteristic of the man. Respectfully yours,
MARY S.

Lincoln to Mary Owens.

Vandalia, Dec. 12, 1858.
Mary—I have been sick ever since my arrival or I should have written sooner. It is but little difference, however, as I have very little to write. And more, the longer I am away the more I think of you more than usual, while at our late meeting we had but few expressions of thoughts. You must know that I cannot see you or think of you with entire indifference, and yet it may be that you are mistaken in regard to what my real feelings toward you are. If I knew you were not, I should not trouble you with this letter. Perhaps any other man would know enough without further information, but I consider it my peculiar right to plead ignorance and your bounden duty to allow the plea. I want in all cases to do right, and most particularly so in all cases with women. I want at this particular time more than anything else to do right with you, and if I knew it would be doing right, as I rather suspect it would, to let you alone I would do it. And, for the purpose of making the matter as plain as possible, I now say that you can now drop the subject, dismiss your thoughts if you ever had any from me forever and leave this letter unanswered, without calling forth one accusing murmur from me. And I will even go further and say that, if it will add anything to your comfort or peace of mind to do so, it is my sincere wish that you should. Do not understand by this that I wish to cut your acquaintance. I mean no such thing. What I do wish is that our further acquaintance shall depend upon yourself. If such further acquaintance would constitute nothing to your happiness, I am sure it would not to mine. I am now willing to release you, provided you wish it, while, on the other hand, I am willing and even anxious to bind you faster if I can be convinced that it will in any considerable degree add to your happiness. This, indeed, is the whole question with me. Nothing would make me more miserable than to believe you miserable, nothing more happy than to know you were so.

In what I have now said I think I cannot be misunderstood, and to make my meaning understood is the only object of this letter. If it suits you best to not answer this farewell. A long life and a merry one attend you. But if you conclude to write back, speak as plainly as I do. There can be neither harm nor danger in saying to me anything you think, just in the manner you think it. My respects to your sister. Your friend,
LINCOLN.

Tramp, Tramp, Tramp!

Behold this pair of idle gents who sadly hang upon the fence. They're gentlemen of leisure? Yes, because they've got to be, I guess. You see, they used to run a shop; the sheriff called and made them stop. Why? Well, they weren't very wise, and so they didn't ADVERTISE.

then let it be forgotten; if otherwise, I much wish you would think seriously before you decide. For my part, I have already decided. What I have said I will most positively abide by, provided you wish it. My opinion is that you had better not do it. You have not been accustomed to hardship, and it may be more severe than you now imagine. I know you are capable of thinking correctly on any subject, and if you deliberate maturely upon this before you decide, then I am willing to abide your decision.

You must write me a good long letter after you get this. You have nothing else to do, and though it might not seem interesting to you after you have written it, it would be a good deal of company to me in this "busy wilderness." Tell your sister I don't want to hear any more about selling out and moving. That gives me the hypo whenever I think of it. Yours, etc.,
LINCOLN.

Springfield, Aug. 16, 1837.

Friend Mary—You will no doubt think it rather strange that I should write you a letter on the same day on which we parted, and I can only account for it by supposing that seeing you lately makes me think of you more than usual, while at our late meeting we had but few expressions of thoughts. You must know that I cannot see you or think of you with entire indifference, and yet it may be that you are mistaken in regard to what my real feelings toward you are. If I knew you were not, I should not trouble you with this letter. Perhaps any other man would know enough without further information, but I consider it my peculiar right to plead ignorance and your bounden duty to allow the plea. I want in all cases to do right, and most particularly so in all cases with women. I want at this particular time more than anything else to do right with you, and if I knew it would be doing right, as I rather suspect it would, to let you alone I would do it. And, for the purpose of making the matter as plain as possible, I now say that you can now drop the subject, dismiss your thoughts if you ever had any from me forever and leave this letter unanswered, without calling forth one accusing murmur from me. And I will even go further and say that, if it will add anything to your comfort or peace of mind to do so, it is my sincere wish that you should. Do not understand by this that I wish to cut your acquaintance. I mean no such thing. What I do wish is that our further acquaintance shall depend upon yourself. If such further acquaintance would constitute nothing to your happiness, I am sure it would not to mine. I am now willing to release you, provided you wish it, while, on the other hand, I am willing and even anxious to bind you faster if I can be convinced that it will in any considerable degree add to your happiness. This, indeed, is the whole question with me. Nothing would make me more miserable than to believe you miserable, nothing more happy than to know you were so.

In what I have now said I think I cannot be misunderstood, and to make my meaning understood is the only object of this letter. If it suits you best to not answer this farewell. A long life and a merry one attend you. But if you conclude to write back, speak as plainly as I do. There can be neither harm nor danger in saying to me anything you think, just in the manner you think it. My respects to your sister. Your friend,
LINCOLN.

Banquet at Indianapolis for Democratic Newspaper Men.

Indianapolis, Feb. 8.—About 300 newspaper men attended the annual banquet of the Indiana Democratic Editorial association at the Grand hotel last night. After the banquet E. E. Cox of Hartford City, who presided, announced the opening of the program.

Thomas R. Marshall of Columbia City was the first to respond to a toast. For thirty minutes he discussed "Democratic Opportunities" in a broadly optimistic way.

Fred C. Van Nuys of Anderson responded to the toast, "Our Cause"; Senator Carl Woods of Columbus spoke on "The Legislature," and the Rev. Thomas H. Kuhn of Richmond discussed "The Preacher in Politics." At the conclusion of the formal program five-minute talks were made by a number.

The business meeting of the association was held today. At this meeting a number of questions of interest to the editors were discussed.

Paid the Extreme Penalty.

Michigan City, Ind., Feb. 8.—George Williams, colored, who with Jesse Cox, another negro, now a fugitive, killed Policemen Pettit and Russell in Indianapolis last September, was hanged in the Indiana state prison this morning. The prisoner walked to the gallows shortly after midnight. Twelve minutes after the drop fell Williams was pronounced dead.

The House This Afternoon Took Up the Much Discussed Gairard "Blind Tiger" Bill.

Indianapolis, Feb. 8.—The Gairard "blind tiger" bill was handed down in the house today just before the noon adjournment. This is the main measure the Anti-Saloon League is asking for this time. A lot of amendments were offered and it was apparent that there would be a hard fight. The Republican members of the house in caucus last night decided that they favored the senate bill to appropriate \$5,000 to place a statue of General Lew Wallace in Statuary hall in the capitol at Washington. Objection was made by friends of the late President Harrison, who thought he should be recognized as the state's favorite son, but a majority of the Republican members decided otherwise, and the Wallace bill will be passed.

Indiana fraternal insurance companies are unable to agree on the provisions of a bill affecting themselves, and the fraternal insurance measure drafted by Auditor of State John C. Billheimer and Representative John D. Volz will not be introduced at this time. Mr. Billheimer said that he did not know whether or not there would be any legislation at this session affecting fraternal companies. Mr. Volz said representatives of the fraternal would get together next week to try and come to an agreement.

The senate killed Senator Wickwire's contributory negligence bill by a majority of 29 to 11. Senator Wickwire made a vigorous defense of it, asserting that employees of railroads were entitled to such protection. The bill was directed against railroads and traction lines. Senator Bland of Linton tried to amend it by having it applied to all corporations, but was defeated. Senator Hugg and Senator Kittinger led the fight against the proposition. Senator Kittinger said it was vicious and would put traction companies out of business if adopted. Senator Wickwire sought to make employers liable for damage whether or not the employee was responsible for his own injury. Senator Strange's bill permitting mutual cyclone insurance companies to operate throughout the state, and Senator Tyndall's bill legalizing the issuing of gravel road bonds, were passed.

Representatives of organized labor are up in arms over the defeat of its child labor bill, which was introduced by Representative Kleckner of Cass county. O. P. Smith, vice president of the State Federation of Labor, said today that Representatives Carmichael and Fitch of Delaware county, Thornton of New Albany, Condo and McEvoy of Grant county, and Baltzell of Princeton have been blacklisted by the union laborers for "pernicious activity" against house bill No. 256, the American Federation of Labor's child labor bill. Mr. Kleckner said that organized labor has received a blow that it will resent.

Caught at the Crossing.

Anderson, Ind., Feb. 8.—Robert G. Babcock, eighty-five years old, the last survivor of the Mexican war in this city, is dead of injuries received when he was struck by a passenger train at the Seventh street crossing of the Big Four railway in this city. Urgent demand by exporters for American wheat caused fresh strength in the Chicago wheat market.

HER LIFE'S SECRET

Evelyn Nesbit Thaw Lays Bare Her Soul to Justify Her Husband's Act.

A NEW COURT PRECEDENT

Not Even in Gotham Had the Grim Walls of a Court Before Enclosed Such a Scene.

Story of Stanford White's Brutal Conquest of Sixteen-Year-Old Girl Revealed to World.

New York, Feb. 8.—Evelyn Nesbit Thaw has told her story in court. To save the life of her husband, charged with murder, she bared to the world the innermost secrets of her soul—a portrayal for which a sanctuary was a more fitting place than the crowded courtroom.

It was the same story she told Harry Thaw in Paris in 1903, when he had asked her to become his wife—the confession of one who felt there was an insurmountable barrier to her ever becoming the bride of the man she loved.

In the big witness chair she appeared but a slip of a girl. And she told the pitiful story of her eventful young life in a frank, girlish way. When tears came unbidden to her big brown eyes and slowly trickled their way down scarlet cheeks, she strove in vain to keep them back. Though the lump in her throat at times seemed about to smother her, she forced the words from trembling lips and by a marvelous display of courage, which took her willingly to her staggering ordeal, she shook off a depression which once threatened to become an absolute collapse.

As the young wife unfolded the narrative of her girlhood and told the early struggles of herself and her mother to keep body and soul together; of how gaunt poverty stood ever at the door, and how she finally was able to earn a livelihood by posing for photographers and artists, she won the murmured sympathy of the throng that filled every available space in the big courtroom.

Then came the relation of the wreck of that girlhood. It was the story of her meeting with Stanford White, the story of the sumptuous studio apartment, whose dainty exterior gave no hint of the luxurious furnishings within; of a velvet-covered swing in which one could swing until slipped toes crashed through the paper of a Japanese parasol swung from the ceiling; the story of a glass of champagne, of black, whirling sensations, and of mirrored bedroom walls. In short, she told all the story.

"Don't scream so. It is all over. It is all right."

"And this was Stanford White?"

The question came from Delphin M. Delmas, now conducting the defense of Harry Thaw.

"Yes, sir."

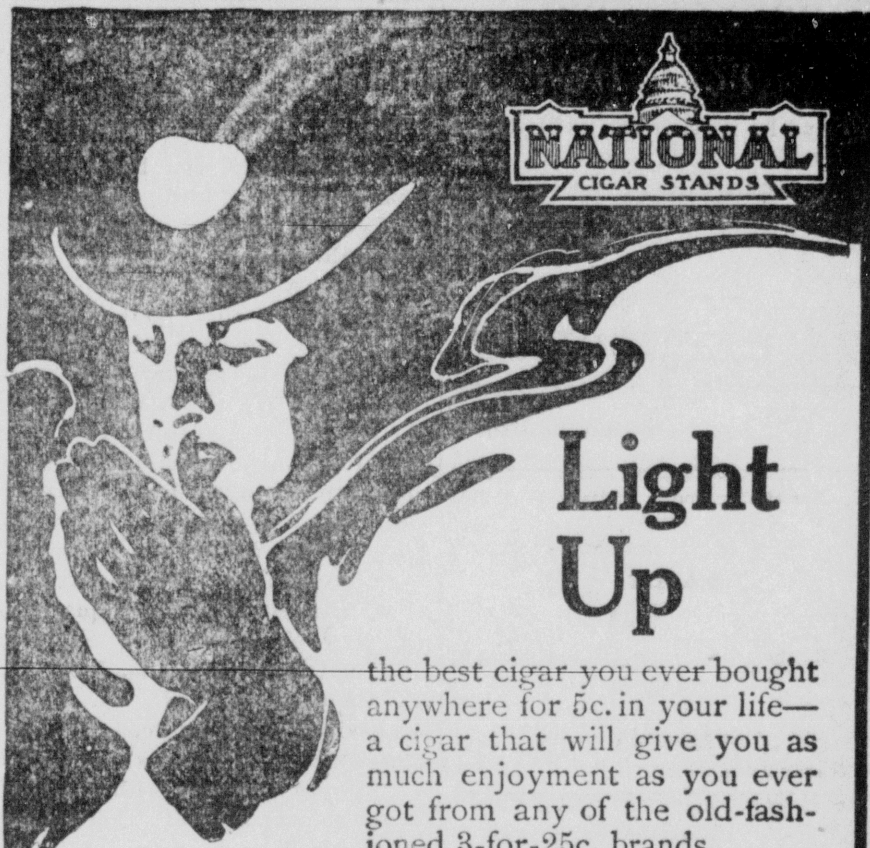

The stillness of the crowd, which was big, bustling, shoving and snarling over some especially coveted seat when court convened, was its own tribute to the effect of the girl's story. Into the narrative there entered nothing of the woman of the world. A girl in face and figure, Mrs. Thaw was still a girl as she withstood an ordeal which might well have startled into terror a woman of mature years and harsher experiences. Into the narrative she injected many little touches of a young girl's hopes and disappointments. Of her early life she related how her mother had gone from Pittsburgh to Philadelphia to secure assistance and how she and her brother Howard—the brother who has been in court many days, but not once has gone near his sister—was placed on a train by friends and sent to their mother.

She recalled that the two little travelers had trouble with the conductor, who wanted to put their cat out of the car. But, she naively added, they held fast possession of it, "just the same." She told of her arrival in New York; of her life here and eventually the acceptance by her mother of the three-refused invitation of a girl of the theater to meet some of her friends at luncheon. These girls' mother told Evelyn's mother they were people in New York society and perfectly proper, else she would not let her girl go with them.

"When she came for me in the hansom," said the witness, "I remember hoping we were going to the Waldorf. I had heard so much about it and I wanted to go there. But the hansom stopped in front of a dingy-looking building in West Twenty-fourth street, and I was told to get out. Mother had dressed me. My skirts were just to my shoe-tops then."

This was in August, 1901.

"He was a big, fat and ugly man. I remember him meeting us at the head of three flights of stairs," she continued. "He gave me presents, and my mother let me go to other parties. Then he said my mother should visit some friends in Pittsburgh. She said she would not leave me. Finally she went. Then came an invitation to a party, but no one else was there—just two. 'They all seem to have turned me down,' he said. After we had dined and I wanted to go home, he said I had not seen all of the apart-

Judge Anderson Says John R. Walsh Must Answer.

Chicago, Feb. 8.—Judge Anderson in the United States district court, dismissed the plea in abatement made in behalf of John R. Walsh, former president of the Chicago National bank, and under indictment on charges of mismanaging that institution. It was claimed by the attorneys for Mr. Walsh that he has not been given a proper hearing before the grand jury and that facts unfavorable to him had been presented to that body, and mitigating circumstances suppressed. The government demurred to the plea advanced in behalf of Mr. Walsh, and the court sustained the demurrer in every particular.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickly by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. TO SAY the least the inquiry into the affairs of the State Life Insurance Company is decidedly embarrassing to the officers of that company.

REPRESENTATIVES of the state prohibition organization appeared before the Public Morals committee of the House Thursday and opposed the \$1000 liquor license bill.

EVERY family is in the market for some line of goods every week. Therefore they are on the look-out all the time for the sort of goods they want. Our advice is to keep an eye on our advertising columns and you will know where to get your wants supplied

THOSE public officers who are advocating a law law for less publicity of their official acts are not taking such a stand as a matter of economy. It is because they do not want the disbursement of public funds by themselves set forth in black and white and published to their constituents. The public officer who has nothing to cover up is glad to give his official acts the widest publicity.

AGAIN John D. Rockefeller has dug down into his pocket and fished out \$32,000,000 for the cause of education. The gift is made through the General Educational Board, organized in 1903 and chartered by an act of congress to develop and strengthen the cause of Education. Quite a number of colleges over the county will benefit by this gift. It is already known that Wabash College is to get \$125,000 and it is probable that some other colleges in the state will be found in the list.

THERE was a breach of discipline at the High School yesterday that has doubtless caused the offending party to regret it after thinking it over. Such things are always unfortunate and the chief harm is to the one who has failed to keep himself in harmony with the school organization. To be a student in a high school is a privilege that every boy and girl should appreciate so thoroughly that enforced discipline should never be necessary.

THE proposed automobile line between Seymour and Brownstown, backed by Elder Z. T. Sweeney and Jos. I. Irwin, is getting some advertisement anyway. The plan seems to meet with favor and if Mr. Sweeney carries out his idea and constructs this road the result will be watched with much interest. If it proves the success that Mr. Sweeney believes firmly it will, there will be many such roads built within a few years. We trust that the legislature will promptly pass the bill that relates to such roads and that this one will be built next summer.

THE legislature could do the public a service by enacting a law requiring school boards of cities and towns to publish annually a financial statement. This statement should show the receipts and disbursements for the entire year. The amount received from the different sources should be shown, the amount of the tuition fund and the amount of the special fund. The expenditures should be set out in a manner similar to the annual reports required of the township trustees. As a rule school boards are composed of men who would gladly make such a report if the same were authorized by law. Under the present plan the people have scarcely an approximate idea of how much money passes through the hands of a school board in the course of a year.

PRIZES WON

Seymour Poultry Fanciers Make Good Showing at Columbus.

E. A. Remy and William Noelker, of the REPUBLICAN office force went to Columbus Thursday evening on the 5:18 train to take a look in at the great exhibition of fine poultry. G. C. Borcharding, H. P. Miller and a number of others who have gone up from here give glowing accounts of the beauty, variety and general success of this show.

It appears from the interest that is being taken in this poultry show by the poultry fanciers of this locality that a successful poultry exhibit could be arranged for Seymour next year. The variety of fine birds in the community is large and yet there are enough men in the business to make competition strong in most of these lines. From the prizes that some of these people have been bringing back from Chicago, Madison Square Garden, New York, Detroit, St. Louis, Cincinnati, Jeffersonville, Indianapolis, Hagerstown, Md., Ft. Wayne, Evansville, Louisville, Ky., and many other places shows that they are well able to compete with all comers from whatever source. There is probably not a place in the country that wins more good prizes for the number of birds that are sent out to the poultry exhibits than Seymour.

Prizes were won by the Seymour exhibitors as follows:

Geo. A. Clark, Rose Comb Black Minorcas, 5 firsts, 4 seconds and 2 thirds.

Noelker Brothers, Buff Wyandottes, 4 firsts, 3 seconds and 2 thirds.

Andrew Huber, Silver Spangled Hamburgs, 2 firsts and 3 seconds.

Joseph Nichter, White Wyandottes, 1 third.

The Crothersville exhibitors won prizes as follows:

Frank H. Hope, Rose Comb Buff Leghorns, 1 first 2 seconds and 2 thirds.

Chas. Blau, Single Comb Brown Leghorns, 2 firsts, 2 seconds and 1 third.

Geo. M. Schuler, White Wyandottes, 1 first, 1 second and 1 third.

F. B. Butler, Buff Wyandottes, 1 third.

Sunday Courier.

The Courier-Journal has recently added as a feature of its Sunday edition a sixteen-page illustrated magazine that is the equal of the ten cent magazines published. Eight pages with half-tone pictures of persons and events of special interest to Louisville and the state of Kentucky, while the other eight pages contain sketches, stories etc., prepared by the best writers. The comic Supplement is another attractive feature of the Sunday Courier-Journal. The Sunday issue of this paper is now the equal of any paper published anywhere and it is constantly improving. The usual number of pages is about fifty-four.

Beta Phi Kappas.

Ten of the members of the Shields High school known as the Beta Phi Kappas and half dozen of their friends were entertained Thursday evening from 8 to 10 by Emerald Whitmer and his mother at their home on N. Chestnut street. Shortly after ten o'clock the party went to the skating rink to enjoy about two hours on the rollers. The young men of the club had arranged for the evening's entertainment and the party was chaperoned by Miss Nora Flenniken and Miss Lora Yarnell, of Pittsburg Pa.

To Sell Implement Stock.

John L. Vogel will sell at public sale on Feb. 23 a lot of farm implements, which were left over from the excellent stock he had when he was in the retail implement trade here. The sale will be at the Alberring poultry building on Tipton street where he was in business. Mr. Vogel has taken employment with the Huber Threshing Machine people, of Marion, Ohio, and will give his time to that work. He has had bills printed announcing his sale.

DIED.

BAKER—Peleg M. Baker, a farmer residing between Brownstown and Freetown, died Thursday afternoon about 4 o'clock. He was a good citizen and a man of unusual industry. About a year ago he purchased the farm where he lived. He was about 47 years old and leaves a wife and a family of children. He was a cousin of Mrs. Sarah Hibner, of this city. Funeral Sunday at 10 a. m. at Honeytown conducted by Elder G. M. Shutts.

Blind Tiger Fine.

For operating a "blind tiger" at Winslow, Pike county, Arthur Stevens was fined \$50 and sent to jail for sixty days in two cases. The combined fine is \$100 and the aggregate jail sentence is 120 days, so the man will have to remain in the county jail for about a year after the costs have been added to the fine.

For Interurban Will Be Convenient To Other Railway Stations.

The report that the Indianapolis, Columbus and Southern interurban people had purchased Mrs. Wolfe's property and the property belonging to Willard Bevins on E. Second street, as a location for their passenger and freight station at this place seems to be true. We have not talked with any of the officials of the company but we understand that they think the first floor of the Wolfe building with a little remodeling will be quite sufficient for a passenger station at least for the first few months after the opening of the road. It is also stated that the company will have their offices here and that these will be in the second story of the Wolfe building. A further report says that the old frame building on the Bevins property is to be torn away and a good sized and convenient freight building is to be erected on the lot extending about ten feet east to the wall of the building which is to be used as a passenger station.

These lots are 120 feet deep and if the reports are true the twenty feet purchased of Mr. Bevins cost the company \$100 per front foot, and the thirty feet on which the brick building stood cost them more than \$170 per front foot.

Those here who had given the matter thought supposed that either the Arlington Hotel property, a half square east on the corner of Ewing street, or the G ger property at the corner of Indianapolis avenue, would be purchased but it is said that the owners of the property refused to sell for what the interurban people considered was reasonable.

We have heard no statements as to how soon the work of making any changes on the property will begin but it will probably be some time within the next sixty or ninety days. Mrs. Wolfe has the privilege of holding her building for about eighty days yet if it suits her convenience to do so.

More Lighting Systems.

The poor gas and electric light service in this city and the rather high price charged for the same considering the service continues to drive many of our leading merchants and business men to installing their own lighting systems.

Following are some of our leading business houses that have already installed the "F. P." lighting systems: L. F. Miller's Dry Goods store, the Hub Clothing store, Jonas Hotel, Thomas Clothing store, the Klondyke, the Gold Mine, J. B. Shepard's restaurant and Voss' Furniture store. Arthur P. Carter, who handles the Standard Gillet hollow wire lighting system, has installed system at Krumer's bowling alley, the Lobby, Jess Buckles saloon and in his own store on east Second St.

John Vande Walle, agent for the National hollow wire lighting system, has recently installed lights at Nicholson's skating rink, Teckemeyer's grocery store, Buhner's saloons, Seelinger's cigar store, Harry Weithof's tailor shop, the Voss Manufacturing Co., Droegge's grocery store, Young & Summers (formerly Seelke's) grocery store, the Greek candy store and the Hoosier Cash grocery. The four last named have all been installed within the past week. J. W. Liddle and Harry Robins who are putting up most of the lights for Mr. Vande Walle are now at Brownstown where they have already installed four systems including one for Mr. Durment. They have also put in two systems at Waynasmile. They also have orders from our business men here for a number of other private systems which will be installed in the next week or two. If this keeps up till spring there will not be much left for the Seymour Gas and Electric Light Co. to do. One of our business men, who installed one of these systems recently, says that it has just saved him \$19.60 in two months time. He also adds that he has had ten times better light than he had.

Mr. Carter has also installed hollow wire systems in the Methodist church and the German Lutheran church at Vallonia and in the Masonic building at Kurtz.

RAILROAD RUMBLINGS.

Engineer Ira Rucker and fireman Win Riley, of the B. & O. S-W, went over to North Vernon this morning to take out a run on the Louisville branch.

J. A. Garrison, of Louisville, one of the road supervisors on the Pennsylvania line, was in this city a short time this morning.

After this week Conductor Charles Wilson, of the Southern Indiana will take a three months' lay off and he and Mrs. Wilson will go to Phoenix, Ariz. to spend the remainder of the winter for the benefit of Mrs. Wilson's health. Mr. Wilson will be greatly missed by his many friends along the line.

Bird Dog Dead.

"Topsy", the famous bird dog owned by W. A. Carter, died Thursday night. This was one of the best bird dogs ever in Seymour and was highly prized by Mr. Carter. She was 10 years old.

OLD FOLKS TESTIFY

The Aged and All Sons and Daughters of Aged People in Seymour Should Be Interested.

For some time the W. F. Peter Drug Co. have been recommending to all aged people of Seymour their cod liver preparation, Vinol, to be the best strength creator in the world for old people. To all such the following will be of interest:

Mr. A. J. Barker, of Evansville, Ind., writes: "There is no other medicine in the world equal to Vinol for elderly people. I would not take a thousand dollars for the good it has done me."

Mrs. Sarah J. Windrom, of Chicago, Ill., writes: Vinol is a Godsend to old people. I am 76 years old but I feel active and well to-day, thanks to the vitalizing effects of Vinol."

Mr. Joseph Banks, Decatur, Ill., writes: "I am in my 78th year, and owing to the cod liver oil preparation, Vinol, I feel better and stronger than I have for years."

Vinol is not a patent medicine, but is a real cod liver preparation from which the useless, indigestible oil has been eliminated and tonic iron, a needful constituent for the blood, added.

Vinol tones up the digestive organs, makes rich, red blood, healthy body material, and sound, steady nerves. In this way it repairs worn tissues, checks the natural decline of the aged builds up the run down, tired and debilitated, and never fails to replace weakness with strength.

If it fails we return to the purchaser every dollar paid for it. W. F. Peter Drug Co.

NOTE.—While we are sole agents for Vinol in Seymour, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town

Gravel Roof Completed.

The Browning Bros., of Columbus, with a force of about a dozen men, completed the work of putting the gravel roof on the new Graessle-Mercer building this morning and returned to Columbus on the 9:50 train.

They were bothered some on account of the paper being frozen or it is said that they could have covered the entire building in about a day and a half. As it was they were only two days, in putting on the sixty squares having begun Wednesday morning. They lost about two hours yesterday on account of the weather. The Browning Bros., Thomas and Vinson, have been in the gravel roofing for about forty years and during that time have covered a great many of the large business buildings at Columbus. The company has been figuring with the Ebner Lee and Cold Storage people and may return here in a few weeks to do the roofing on the additions that are being built there.

Trustee Bill Killed.

The house committee on county and township affairs agreed to an indefinite postponement of the township trustee bill legalizing acts of trustees where done with or without the consent of the advisory boards.

Mr. Joyce of Vigo county said he would have to walk up the alleys of Terre Haute instead of the streets if he voted for the bill and chairman Woodfill told the committee he would be mobbed. There are suits to recover from some of the trustees of the alleged illegal transactions.

May Open Rink.

A Mr. Vogel from Seymour is in Columbus in an effort to open a skating rink here. He is endeavoring to rent the Lucas Hall on Fourth street in which to open the rink.—Columbus Republican.

BRINGING GIFTS

John D. Rockefeller Hands Over an Additional \$32,000,000. For Education.

IT CAME AS A SURPRISE

Education Board Was Not Looking For Such a Windfall When It Was Called In Special Session.

With His Previous Gifts to This Board Rockefeller Has Now Given \$43,000,000.

New York, Feb. 8.—Thirty-two millions of dollars worth of income-bearing securities was the gift which John D. Rockefeller through his son, John D. Rockefeller, Jr., announced to the general education board when it assembled for a special meeting in this city late yesterday afternoon. For general education purposes throughout the country is given as the purpose of this donation—the largest single prize ever handed out for such

JOHN D. ROCKEFELLER.

purposes. Mr. Rockefeller previously had given the board \$11,000,000 for the same work, his contributions now amounting to \$43,000,000.

Most of the members of the board were surprised at the announcement and amazed at the size of the gift. Dr. Buttrick, the secretary, said he did not know the gift was to be made until he received the letter containing the announcement. Other members did not know of the donation until the letter was read. Members of the board when asked what the "specific purposes" referred to in Mr. Rockefeller's letter meant, said that it was in the line of educational work, and was intended, in their opinion, to give Mr. Rockefeller the right to direct the disposition of the fund to such institutions, within the province of the board, as he may deem proper. The elder Mr. Rockefeller is not a member of the board, but his son is a member, and the active direction doubtless will come from him.

The board voted to accept the gift, and in appreciation drafted a letter to the elder Mr. Rockefeller declaring its "deep sense of gratitude to you, and of responsibility to society."

"This is the largest sum ever given by a man in the history of the race for any social or philanthropic purpose," continues the acknowledgment. "The board congratulates you upon the high and wise impulse which has moved you to this deed, and desires to thank you, in behalf of all educational interests whose developments it will advance, in behalf of our country, whose civilization for all time it should be made to strengthen and elevate, and in behalf of mankind everywhere in whose interest it has been given, and for whose use it has been dedicated.

"The administration of this fund entails upon the general education board the most far-reaching responsibilities ever placed upon any educational organization in the world. As members of the board, we accept this responsibility, conscientious alike of its difficulties and its opportunities. We will use our best wisdom to transmute your gift into intellectual and moral power, counting it a supreme privilege to dedicate whatever strength we have to its just use in the service of men."

King Changed His Mind.

Brussels, Feb. 8.—One of the royal carriages in which King Leopold was riding had a collision with an electric street car. His majesty was thrown violently to the floor of his vehicle. He sustained no injuries, but the shock was severe. He was subsequently conducted to his palace. This accident has resulted in King Leopold postponing his departure for the south of France.

DANDELION

A simple remedy for liver trouble biliousness.

The liver is a wonderful organ, always at work filtering, purifying and manufacturing ingredients necessary in life. It is the central laboratory of the body. It plays the part of a natural poison antidote. The poison contained in the decomposing food and waste of the body are arrested by it and rendered harmless. The liver is the seat of manufacture of bile a fluid that keeps sweet the intestine and aids to digest food. Healthy bile is an antiseptic and when deficient or absent the contents of the bowels become putrid and full of poisonous matter. You can always keep your liver in a healthy condition by using Dr. Edwards Comp. Dandelion Tablets or Pills. They act directly upon the liver and produce a healthy flow of bile.

A PUBLIC DEPOSITORY

Many of Main Features of Proposed Measure Agreed Upon.

Indianapolis, Ind., Feb. 8.—It was learned today that many of the main features of the public depository bill which is being drafted by the joint subcommittees of the house and senate, have been agreed upon. An effort is being made to put the measure in shape for introduction early next week. That provision in one depository measure which permitted the selection of not more than forty depositories for state funds, to be located in different parts of the state, will be incorporated in the new bill, it is said. A state finance board will select the depositories. Instead of limiting the number of depositories for county funds to two or three, as several of the bills did, the new bill will throw the gates open in a county to all financial institutions which may desire to secure funds after meeting all the requirements of the law. This has been the wish of practically all the banks in the state which at present are not securing county deposits because of political alliances that the county treasurers may have with one or two favored banks. An important feature of the new bill is that it does not require banks to enter bids for deposits. For county funds the county finance board and for state funds the state finance board will fix a flat rate of interest which the banks shall pay.

Representative Sweeney's bill providing for flag stations for railroads in towns and cities of from 2,000 to 4,500 population, failed to pass for lack of constitutional majority. He will call it up again. The bill relates primarily to Tell City. Representative Lieb of Spencer county obtained the enactment of a measure affecting the burial of old soldiers by providing that where they must be buried by the public, the members of the family shall be given the money out of public funds to arrange for the ceremonies. Senator Wood's measure prohibiting Sunday barbering was amended to include clubs' shops, and then advanced to third reading. Representative Woodfill's bill legalizing marriage of second cousins already performed, was passed. An effort to strike out the enacting clause of Representative Green's bill raising the mortgage exemption from \$700 to \$1,200, failed. Representative Furnas's bill to compel railroad companies to haul 150 pounds of baggage on every first-class ticket, was passed by unanimous vote.

The house advanced what has been known as Governor Hanly's "ripper" bill, but it was amended so there was no stinger attached. It provided originally for the abolition of all state institutional boards as constituted at present, and for the appointment of uniform boards of four members, two Republicans and two Democrats. There was so much opposition to this plan that Representative Hanna, who introduced the bill, found that it would have to be amended so as not to interfere with the persons who are now members of the board. This amendment was inserted and as the measure stands the governor will be permitted to appoint one more member of each board. The other amendments were of a minor character. The Democrats and anti-administration Republicans were willing to stand for the bill after it was amended to suit them.

The Wabash Railroad company has paid Secretary of State Sims \$66,500 in filing a notice of its increase of capital stock to \$66,500,000. This is the largest fee ever paid to the secretary of state of Indiana and it will be sufficient to meet all of the expenses of the department for four years and leave a balance of \$7,000. The notice was signed by President Delano, Secretary Pryor and the board of directors. The increase was authorized at a meeting of the directors last August.

The house committee on judiciary will tonight give the representatives of Vincennes university another open hearing on their bill for an appropriation of \$120,000 to pay in full the university's claim against the state. There seems to be more sentiment favorable to this measure than ever before. Many members who have taken time to investigate the claim believe that it should be allowed.

Seeking a New Taxing System.

Paris, Feb. 8.—The government's new scheme for taxation, introduced in the chamber of deputies, created a great stir when it was made public. If enacted into a law it will constitute a complete readjustment of France's fiscal system. The old door, window, poll and other direct taxes are to be replaced by a system based upon incomes. Day laborers are practically exempted. The tax upon incomes above \$1,000 a year is made progressive up to 4 per cent of the total.

Sapulpa Is Ambitious.

Guthrie, Okla., Feb. 8.—Sapulpa, I. T., has offered a proposition to the constitutional convention to locate the capital of the new state at that place. It was agreed to furnish 100 acres of land; to give \$100,000 cash and to furnish light and heat for the state buildings free of charge for fifty years.

DOINGS IN CONGRESS

Indian Appropriation Bill Roughly Handled by Senate.

Washington, Feb. 8.—The house passed the bill amending the act relating to the withdrawal from bond, tax free, of domestic alcohol, when rendered unfit for beverage or liquid medicinal uses by mixture with suitable denaturing materials. The bill provides for the establishment of central denaturing bonded warehouses, other than those at distilleries, to which alcohol of the required proof may be transferred from distilleries or distillery bonded warehouses, without payment of the internal revenue tax. The house completed and passed the river and harbor appropriation bill, carrying more than \$3,000,000.

The Indian appropriation bill received rough handling at the hands of the senate. The amendments of the committee and especially those suggested by the special committee who went to Indian Territory last summer to investigate conditions there, were nearly all rejected on points of order. The provision which allowed full-blood Indians of Indian Territory to sell their surplus lands was defeated by a vote of 31 to 22, which leaves in force the provision of law known as the McCumbers amendment, prohibiting the alienating of such lands for twenty-five years. The coal lands amendment allowing the surface of the coal lands in Indian Territory to be sold, and which was regarded as of equal importance with that providing for the removal of the restrictions on alienation, was ruled out of the bill on a point of order.

Senator Beveridge's bill for regulating child labor has been killed by the decision of the house committee on the judiciary that a federal child labor law would be unconstitutional.

In the cable he challenges all the heavyweights in America and says he will post his forfeit upon arrival. The Ventura will arrive in San Francisco about March 12.

Prospective Honors for Brownson.

Washington, Feb. 8.—Before he relinquishes command of the Asiatic station to become chief of the bureau of navigation in Washington, Rear Admiral Brownson will, it is understood, have the honor of commanding the entire new Pacific fleet, just as Rear Admiral Evans now commands the Atlantic fleet. It is also possible that in the event that congress should decide to accede to the navy department's recommendation and authorize the appointment of two vice admirals, the officers named will have the honor of being the first to bear those titles.

Purchased Kurtz Mill.

Lynn Faulkner and Charles Sauer, of this city, and William Armbruster, of Kurtz, have purchased the Kurtz Slack Saw Factory of Preston Rider Jr., of Crothersville, and have taken possession of the same. They will operate this factory steadily, having already purchased quite a lot of timber which is being hauled in. They will add a saw mill to the plant and therefore be able to handle timber that this mill could not formerly take care of. This plant is a big thing for Kurtz.

Opera House Packed.

Not for many a day has there been such a packed house at the Seymour opera house as there was last evening to witness the production of Stetson's "Uncle Tom's Cabin" under the management of Mr. Kibbie. The gallery became so crowded that it was necessary to quit selling tickets for that part of the house. This is a thing that has seldom happened since the present opera house was built about seventeen years ago. Almost every seat was sold below except some of the boxes and a few seats up in front. The boxes were sold at a dollar, otherwise they would probably have been sold out. The people here seem anxious to get their money's worth when they go to a show and they know what Stetson's "Uncle Tom's Cabin" has in store for them. This show has played here about ten or fifteen times in the past twenty-two years and Mr. Kibbie informed the REPUBLICAN last evening that they would probably try to make this city again next year. They are making big jumps at present having played at Vincennes on Wednesday evening. This evening they play at Connersville, and on Saturday evening at Muncie. Then they go to Terre Haute and from there to some northern Indiana city. They carry a large company and have a special car of their own. Their play was pretty well advertised here and this fact together with the street parade account for the great rush for admittance last evening. The house began to fill up almost a half hour before time for the rise of the curtain. Everybody was well pleased with the show.

Telephone Men.

The regular quarterly meeting of the eleventh district of the Indiana Independent Telephone Association was held at Columbus Thursday. At the meeting W. H. McPherson, of Brownstown, was re-elected president and W. B. Reed, of Seymour, was elected secretary and treasurer. The eleventh district comprises the counties of Bartholomew, Brown, Dearborn, Decatur, Jackson, Jefferson, Jennings, Ohio, Ripley and Switzerland. There are one hundred and twenty-seven independent telephone companies in the state association.

The following program was prepared for the meeting and was carried out about as previously arranged:

Telephone Connections, W. H. McPherson, Brownstown, president Brownstown Telephone Company.

Organization and Discipline, A. L. Tetu, Indianapolis, General Manager New Long Distance Telephone Company.

No Compromise With Monopoly, Thos. E. Davidson, Greensburg.

Limits of Rural Free Service, C. R. Green, Rising Sun, Manager Ohio River Telephone Company.

Financing Telephone Property, C. S. Norton, Indianapolis.

A Man of Fame.

Captain Jack Crawford, the noted Post-Scout, who comes to this city next week is the one entertainer upon the American platform of his kind. There is no other like him. The man and his stories show forth a phase of American life intensely fascinating to all. He is a custodian of great traditions and he expresses them in a unique and remarkable manner. His entertaining is a rare and rare. It may be more nearly described as a rope of pearls, of verse and story hung upon a golden thread of off-hand discourse, the gems flashing with the sparkling light of irresistible wit and soul enlivening humor. From the time he appears upon the platform until he bids his auditors a smiling good night, there is not an uninteresting moment. As Sam P. Jones once said, "Go and hear him if you have to mortgage the farm." Society Hall, Wednesday, Feb. 13, 1907.

Telephone Talk.

Citizens of Freetown and vicinity established a mutual telephone system several months ago and from the first have had very satisfactory patronage. The farmers about Surprise and Acme and in fact all along the line between Freetown and Seymour are taking an interest in this company and as a result some of them already have telephone service. Their purpose is to build into Seymour during the coming summer and connect here with the local exchange. This will be a very useful line and will serve an excellent territory. There are many farmers all through that territory who want telephone service and they will likely get it through this mutual company.

High School Notes.

It is reported that each of the High School classes has its flag up now and that there seems to be some sort of a quiet understanding that there is to be no more scrapping for a few days, that is, between the classes. The Juniors have been priding themselves that since the trouble of last week they have succeeded in keeping their colors tacked up on the wall where the Seniors had to walk under them. However we had never noticed by the Seniors actions on the street that they had had anything new to happen that had caused them any humiliation. The High School has been quite a place for excitement of late, and we may feel congratulated if we do not hear further from some of these class and individual clashing.

Adds Another Table.

George Kramer is making some changes in the room in the Masonic Temple where he conducts his pool-room and bowling alley. He is taking out one of the alleys and putting in another pool table to better meet the demands of his patrons. This will give him two pool tables, one billiard table and one bowling alley. He will make some changes in the placing of his fixtures, thus improving the general appearance of the room.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed Deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

MEN ADMIRE

a pretty face, a good figure, but sooner or later learn that the healthy, happy, contented woman is most of all to be admired.

Women troubled with fainting spells, irregularities, nervous irritability, backache, the "blues," and those dreadful dragging sensations, cannot hope to be happy or popular, and advancement in either home, business or social life is impossible.

The cause of these troubles, however, yields quickly to Lydia E. Pinkham's Vegetable Compound made from native roots and herbs. It acts at once upon the organ afflicted and the nerve centers, dispelling effectually all those distressing symptoms. No other medicine in the country has received such unqualified endorsement or has such a record of cures of female ills as has

Lydia E. Pinkham's Vegetable Compound

Miss Emma Runtzler, of 631 State St., Schenectady, N. Y., writes:—"For a long time I was troubled with a weakness which seemed to drain all my strength away. I had dull headaches, was nervous, irritable, and all worn out. Chancing to read one of your advertisements of a case similar to mine cured by Lydia E. Pinkham's Vegetable Compound, I decided to try it and I cannot express my gratitude for the benefit received. I am entirely well and feel like a new person."

Lydia E. Pinkham's Vegetable Compound is the most successful remedy for all forms of Female Complaints, Weak Back, Falling and Displacements, Inflammation and Ulceration, and is invaluable in preparing for childbirth and the Change of Life.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. Her advice is free and always helpful.

The Limit Of Life.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which race is now possessed. The critical period that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strikingly to longevity. SEVERE ECZEMA CURED IN SOUTH

Suffers Three Years—Hands and Eye Most Affected—Now Entirely Recovered and Will Recommend

CUTICURA REMEDIES IN ALL PARTS OF PARISH

"My wife was taken badly with eczema for three years, and she employed a doctor with no effect at all until she employed Cuticura Soap and Ointment. One of her hands and her left eye were badly affected, and when she would stop using Cuticura Soap and Ointment the eczema came back, but very slightly; but it did her a sight of good. Then we complied with the instructions in using the entire set of Cuticura Remedies and my wife is entirely recovered. She thanks Cuticura very much, and will recommend it highly in our locality and in every nook and corner of our parish. God bless you for the sake of suffering humanity. I. M. Robert, Hydropolis, La., Jan. 5 and Sept. 1, 1906."

SOUTHERN MAN CURED Of a Terrible Eczema by Cuticura in Six Weeks.

"Some time ago I suffered terribly with eczema, and I had the best medical attendance, but the more medicine I took the worse it seemed to get. I kept on with medicine for about five weeks until I saw the Cuticura Remedies advertised, and I at once purchased the Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent, but had not the slightest hope of them curing me. After I had used the first set of the Cuticura Remedies I saw the improvement, and in just six weeks my skin was as smooth as ever. I advise any one suffering from this terrible disease to use the Cuticura Remedies. Henry J. Steljes, 132 Spring St., Charleston, S. C., June 12, 1906."

CATARRH A UNIVERSAL BLOOD DISEASE

Catarrh is usually worse in Winter, because of the cold, damp and suddenly changing climate. Colds are contracted, and neglected and as the secretions from the different inflamed membranes are absorbed into the blood the unpleasant symptoms of the disease commence. The nostrils are stopped up and a constant dropping of mucous back into the throat keeps up a continual hawking and spitting. The patient has dull headaches, ringing noises in the ears, and often slight fever and a depressed, half-sick feeling accompanies the disease. The blood becomes so fully charged with catarrhal matter that stomach troubles are brought on, the kidneys and bladder are affected, and if the blood is not purified of the poison the lungs become diseased because of the constant passage of impure blood through them. Catarrh cannot be cured with washes, sprays, inhalations and such treatment; these cannot reach the poison-laden blood where the real cause is located, and can only give temporary relief and comfort. A disease which affects the entire blood supply as does Catarrh, must be treated with a blood purifier. S. S. S. is the best remedy for Catarrh, which has grown to be a universal disease. It goes to the bottom of the trouble, rids the blood of the catarrhal matter, reinvigorates the circulation, and cures this disgusting disease permanently. When S. S. S. has purified the blood every part of the system receives a supply of fresh, healthy blood; then the inflamed membranes heal and every symptom of Catarrh passes away. Write for our book containing information about Catarrh, and ask for any medical advice you desire. No charge is made for either.

BUSINESS COLLEGES ARE FAILURES

In small cities and towns, because

1. There is not a sufficient population to support a GOOD school;
2. Such schools are usually conducted by persons who are NOT qualified, or who make it a practice to travel about and defraud their patrons;
3. There are few if any opportunities for their graduates to secure employment in such local markets;
4. The THOROUGH business colleges are located in the larger cities and are conducted by persons who are qualified;
5. The graduates of business colleges in small cities or towns can not secure employment in large cities when thrown in competition with the THOROUGH graduates of high-class schools, as business men have no time to experiment with incompetents.

Therefore, be wise. Send for the finest 68-page catalogue ever issued by a commercial school, before deciding to throw away your money for a worthless training at some cheap school.
